

Braille Imprint Range

Sign Trade
2016

Braille & Tactile Signs

Signlink has one of the largest Braille & Tactile range in the market today with over 45 standards signs.

The Braille Imprint range was specifically developed for a commercial environment such as hospitals, universities, schools and government buildings.

All standard Braille imprint signs are held in stock.

Braille imprint signs are moulded from a single piece of polycarbonate. This means there is no individual elements glued to the surface of the signs.

All graphics are printed on the inside face and have been applied to a semi rigid polyethylene plate. All signs also include a 0.6mm thick double sided tape for installation. We strongly recommend mounting onto a rigid aluminium backing if being installed on a textured surface. Braille imprint signs are sold at market leading prices. We manufacture these signs in large production runs, keeping the individual price down.

All signs comply with the Australian building code.

Accessible transfer Diagram:

Signage for accessible sanitary facilities must identify if the facility is suitable for "Left Hand" or "Right Hand" transfer. This is noted on our standard signs as "LH" or "RH"

*All signs held in stock

With current amendments to the Australian building code, every exit in the following scenarios are required to have a Braille and Tactile exit sign installed;

- Exit doors opening to a stairway
- Exit doors opening to the street or open area
- Exit doors for all horizontal exits in a storey.

The signs must state: "Exit" and "Level" followed by the floor/level number. The sign is to be installed on the wall on the latch side between 50mm from the architrave. It must also be located between 1250 and 1600mm from FFL.

Custom Braille

Custom Braille

Complimenting our standard range of Braille & Tactile Pictograms signs is the custom and bespoke Polymer Printed signs. Custom signs can be produced from a supplied set of artwork or our art department can supply artwork based on our sizes and layouts.

	<u>Internal</u>	<u>External</u>
180 x 180mm	\$77	\$122
260 x 180mm	\$122	\$154
180 x 180mm	-	\$137 w/Accessible symbol
260 x 180mm	-	\$169 w/Accessible symbol

All prices are exc. GST

Internal Signs

Our custom internal grade signs are made from a laminated impact acrylic, which is reverse sprayed in a variety of colours. The finish is a matte non-glare and complies with Australian Standard for Braille & Tactile signs. The raised tactile text and symbols are bonded to the material with the Braille translation applied 8 mm below text. These signs can be no larger than 250 x 600 mm high, if you require larger signs these will need to be tiled.

External Signs

Our custom external grade signs are made from Photopolymer one piece membrane and applied to an aluminium base. The background colour is painted, all tactile lettering and symbols are hot foil stamped with the entire sign being clear coated encapsulating the elements. These signs can be no larger than 450 x 600 mm high, if you require larger signs these will need to be tiled.

Introducing the

Online Trade Store.

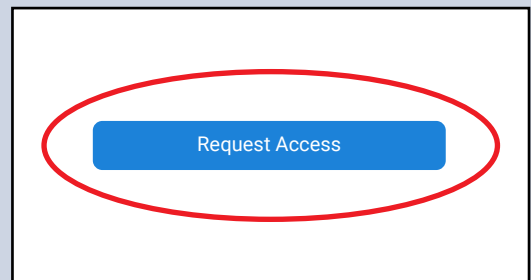

We have made it easier and more convenient for you to order our products.

Simply log on and register and benefit from our 1 business day despatch for our online range.
